PROJECTS

Portfolio (www.avinashdashin.com): My portfolio in React.js showcasing my projects.

DentrisDMS (www.dentrisdms.com): Created an inventory system using JavaScript, PHP and MySQL queries. To view, login with subadmin@admin.com, Password: 123456.

KneeFlex (<https://github.com/nsriv531/HTC-2024-Team-Mobility>): Worked collaboratively with two students on a client side application that utilized analytical tools like Power BI and Tableau to display personal measures of patients recovery with knee injuries. Utilized a back-end framework written in SQLite.

Handle (<https://github.com/nsriv531/Handle-Public-Repository>): Worked on a collaborative full-scale SAAS product that helped managed business operations and a userbase for a ceramics studio. Worked in Django and React.js along with a junior developer and a senior developer.

WORK EXPERIENCE

BACK-END DEVELOPER

MAY 2024 - ONGOING

Workshop Studios – Calgary Alberta

Worked with another programmer on integrating Django templates, API's, and back end functionality. Used React.js, and other web development technologies to develop the front-end of this project.

Worked and designed database modals within the Django framework, and wrote various SQLite, MySQL and PostgreSQL queries to retrieve necessary data within Django's Back End.

IT DEVELOPER (REMOTE)

SEPTEMBER 2023 – JANUARY 2024

Ahinkes Kitchen – Calgary Alberta

Redeveloped company website increasing internet traffic with a user database, using Square WordPress, SwipePages and other web frameworks like React.js.

Integrated and migrated business operations to a new POS system called Clover.

RESEARCH ASSISTANT

SEPTEMBER 2022 – DECEMBER 2022

Mount Royal University – Calgary Alberta

Researched into data privacy and data retrieval methods across various vendors that sell IoT devices, like Arlo, Amazon, and Google.

VOLUNTEERING / LEADERSHIP

PRESIDENT

APRIL 2024 - ONGOING

Computing Alliance of Mount Royal University – Calgary Alberta

Managed a team of executives while organizing and delivering events for the student body of around 800 members comprising of those studying Information Systems, Computer Science, and Data Science.

Organized the Annual Networking Event for 2025, featuring companies like **ATB**, **Cenovus**, and **ENMAX**.
